A SURE CURE FOR CROUP.

Twenty-five Years' Constant Use Without a Fallure.

The first indication of croup is hoarsness, and in a child subject to that disease it may be taken as a sure sign of the approach of an attack. Following this hoarsness is a peculiar rough cough if Chamberlain's Cough Remedy is given as the child becomes hoarse, or even after the croupy cough appears, it will prevent the attack. It is used in many thomsends of homes in this broad land and never disappoints the anxious mothers. We have yet to learn of a single instance in which it has not proved effectual. No other preparation can show such a record—twenty-five years' constant use without a failure. For sale by Charles Rogers.

Some women are like cats; as soon as you pay them a compliment they begin to purt.
